

MERCHANT BUREAU FORMED AT SECOND RETAIL MEETING

Motion Effecting Organization
of Safeguarding Order Is
Passed Here.

With a view toward safeguarding the interests of the retail merchants of Mishawaka, a division of the local Chamber of Commerce which will be known as the Retail Merchants' bureau of the Mishawaka Chamber of Commerce was formed Tuesday evening by a group of chamber members at a meeting held at the Mishawaka hotel. H. C. Moore acted as chairman.

Upon the presentation of a constitution and by-laws by Attorney John W. Schindler in which was incorporated the appointment of a board of nine directors, a motion effecting the organization of the bureau was unanimously adopted. Officers will be chosen by the directors at a meeting to be held within the next few days. The first regular meeting of the new bureau will be held upon the second Tuesday in May.

According to the constitution, any person, firm or corporation doing a retail business in Mishawaka at an established location is entitled to membership in the organization providing the person, firm or corporation is already a member of the Mishawaka Chamber of Commerce. The president of the bureau must be a member of the board of directors of the chamber, thus providing for complete cooperation between the two bodies and its offspring. The members of the bureau will pay nominal dues in addition to their regular Chamber of Commerce assessment to provide for any particular line of activity it may care to follow.

"The motive back of the move to form the bureau arises in the fact that there are many problems which do not particularly concern other members of the chamber," said Mr. Schindler. "Through a retail merchants' bureau, each individual merchant will be given an opportunity to consult informally with other retailers confronted with similar difficulties, with the result that all will be mutually benefited. In the matter of special sales, closing hours or credits concerted action can easily be attained."

The members of the board of directors from which will be elected a president, vice-president, secretary and treasurer, are as follows: John C. Bernard, Joseph C. Brady, H. C. Moore, Abraham Fisher, Charles Wells, O. M. Voorhees, Edward C. Wentz, Ray S. Winey and Frank H. Wurz.

ESTIMATE 30,000 ALIENS VIOLATING PROHIBITION LAWS

Anti-Saloon League Counsel
Gives Explanation of Proposed Bill.

WASHINGTON, D. C., April 11.—The adoption by the house of a bill providing for the deportation of aliens convicted of violating the prohibition and narcotic laws has brought from Wayne B. Wheeler, general counsel of the anti-saloon league, a statement explaining why such legislation is deemed necessary. According to this statement there are approximately 30,000 aliens in the United States. It is estimated that about 30,000 of them are violating either the narcotic law or the prohibition law. In many places the majority of the liquor law violators are aliens. They fill the jails and burden taxpayers. Continuing the statement of Mr. Wheeler says:

"The United States has provided for years for the deportation of alien criminals violating laws involving moral turpitude. Up to the present, the laws relating to the prohibition of narcotics and the liquor traffic have not been construed as involving moral turpitude.

"We do not permit aliens who have violated the laws of their own countries to enter the United States, and if these aliens violate the laws of this country before becoming naturalized they should be put in the same class. The only way to do this is by deportation.

"Citizens of the United States who violate the narcotic and liquor laws cannot be deported and it is our misfortune to have them in our midst. The alien criminals who commit these offenses should be deported by the country to which they owe their allegiance through citizenship.

"There is no more moral or social reason why a nation should persist in harboring a guest who accepts its favors and violates its constitution, than there is that an individual should continue to extend hospitality to one who accepts the hospitality of his home and then betrays his most sacred confidence.

"No alien can be deported until he has been convicted of violating the law. His deportation is then possible only after a hearing and he has been declared an undesirable alien by the secretary of labor.

"The United States is the melting pot of the world. It has assimilated all law-abiding people who come to our shores. The anarchist and the persistent law violator carries no credentials which give him any claim to citizenship. The opportunities which this nation offers to newcomers is based upon orderly government. Every personal and property right we have is conditioned upon law and its enforcement.

"Those who will not obey the laws which guarantee them blessings have no right to ask for citizenship or to remain in a country made great and prosperous by constitutional and statutory enactment and their enforcement."
